

EDSASETECH Video Surveillance Offerings

Video Surveillance Offerings

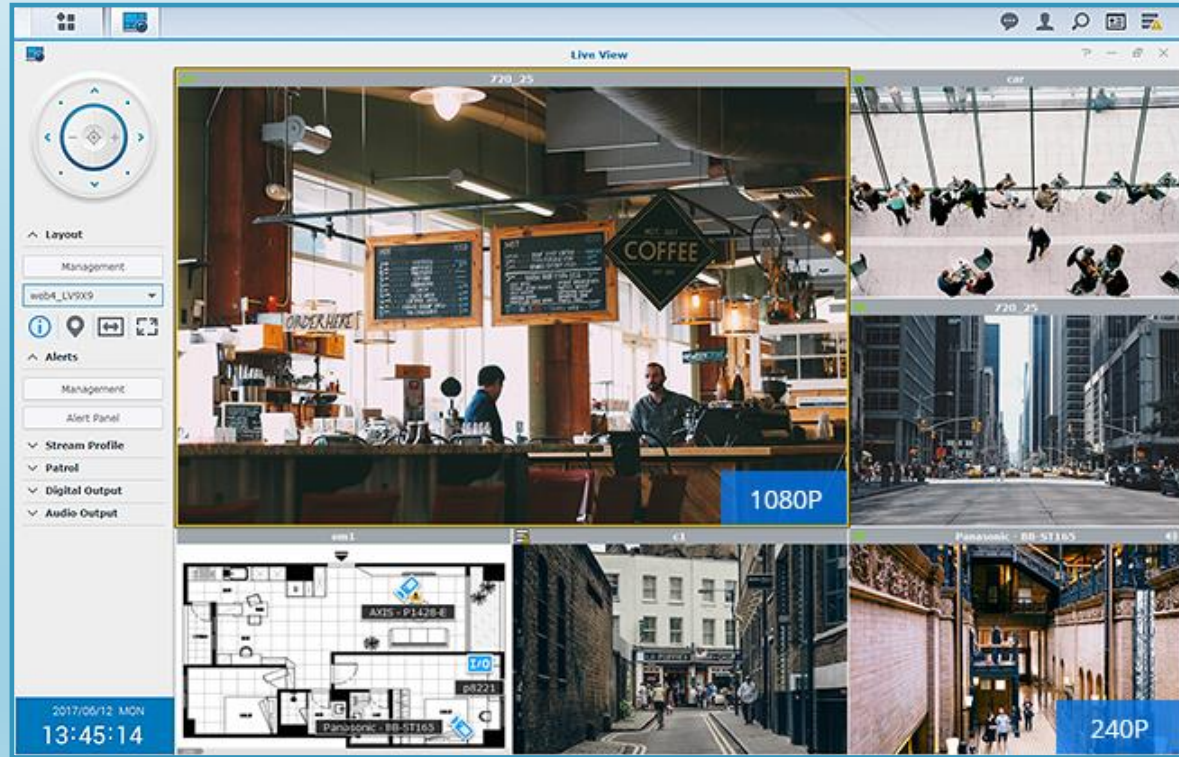

- We help you protect your business, home and valuable assets with reliable surveillance offerings that deliver intelligent monitoring and video management tools.
- We use computer vision and artificial intelligence algorithms to detect changes and trigger notifications for actions to be taken.
- We provide a broad range of useful video surveillance functionalities including:
 - ❖ Live Views & Alerts
 - ❖ Diverse integration with other input/output systems
 - ❖ (De)Centralized Storage
 - ❖ Mobile Surveillance & Automatic Notifications

Live View & Alerts

Auto switching: Switch stream resolution automatically according to the channel window size.

Event trigger: When an event is triggered, the resolution of live feeds will auto-adjust to the highest resolution.

Motion detection: System detects if there's any movement in a pre-determined area. 

Missing object: Any object that's removed or missing from a pre-defined area triggers the alarm. 

Foreign object: Any object that enters and remains in a pre-defined area is taken as a foreign object. 

Diverse Integration With Other Input/Output Systems

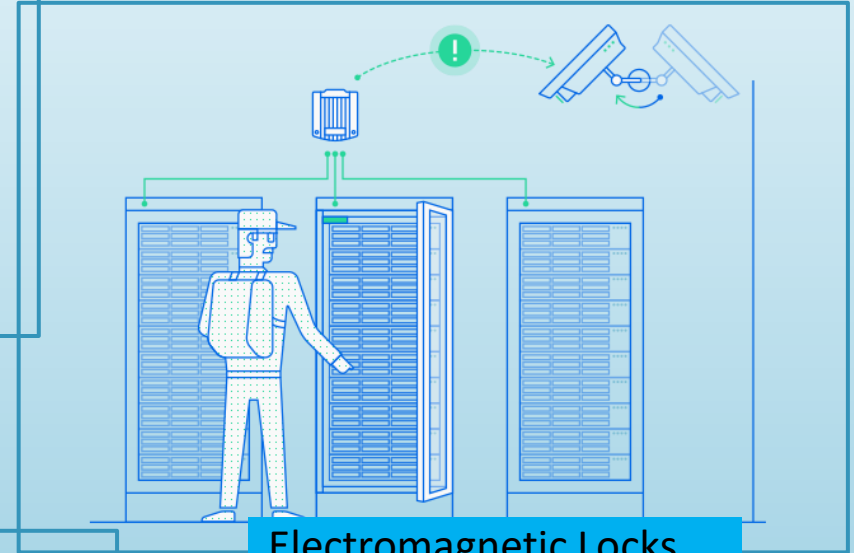

❖ Our surveillance solutions can be integrated with door controllers, IP Speakers, POS systems and various types of customized I/O devices.

IP Speakers

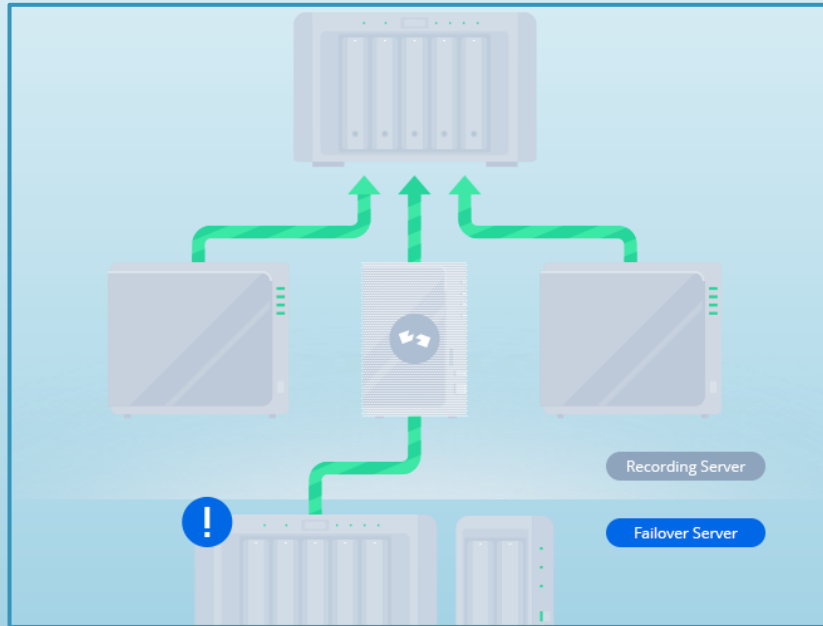

Smoke & Infrared detectors

Electromagnetic Locks

(De)Centralized Storage

- ❖ We offer you the freedom of where to store your surveillance data:
 - ❖ On CCTV Camera SD card
 - ❖ Locally on a server or a Network Attached Storage
 - ❖ On the Cloud
 - ❖ A combination of 2 or all the above

Mobile Surveillance & Automatic Notifications

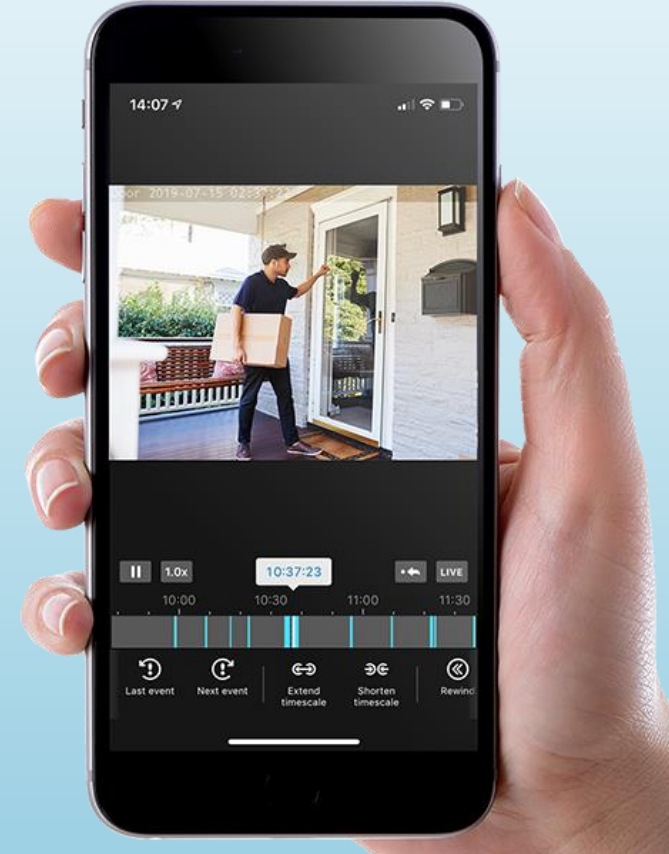

SMS: we provide SMS notification services to alert you of events whenever they occur.

Email: we provide support for Gmail, Yahoo, Outlook and other user defined SMTP server.

Mobile: Push notification can be sent directly to relevant personnel whenever an event occurs.

iOS & Android App: With our app, you can watch up to six live feeds and receive notifications to you phone wherever you may be.
